Final Cost: \$109,445-45

This expenditure is justified as:

- An emergency involving public health.
- An emergency involving public safety.
- Necessary to protect State property from further loss or damage.
- Necessary to prevent or minimize serious disruption in State services.
- Necessary to insure integrity of State records.
- Quick purchase as provided by Section 20-30 (d) of the Illinois Procurement Code.

The conditions and circumstances requiring this emergency expenditure are:

Due to increased deterioration of the deck beams on structures numbered 083-0040, 083-0041 and 097-0019, the Bureau of Bridges and Structures has deemed it necessary to restrict traffic to one lane. This is being done in an effort to prevent further damage to the bridge beams and eliminate the need for load postings. These bridges provide access to a coal mine, landfill and agricultural industries. There are no practical detour routes. Traffic will be restricted using temporary traffic signals. Brown Electric will install and maintain the signals and traffic control until such time as the District can produce and award contract plans. This is estimated to occur around August 2007
