This expenditure is justified as:

- An emergency involving public safety.
- Necessary to protect State property from further loss or damage.
- Necessary to prevent or minimize serious disruption in State services.
- Necessary to insure integrity of State records.

The conditions and circumstances requiring this emergency expenditure are:

Rising water elevations on the Mississippi River during the June Flood of 2008 necessitated a temporary grade raise of IL Route 100 (FAP Route 304) to maintain services. Upon receding of the flood waters and removal of the temporary grade raise, damages to surface of IL 100 and adjacent bike trail and siltation/debris clogging the storm drainage system were observed. Determination of funding reimbursement and subsequent on-site field meeting with FHWA resulted in the timing of this emergency affidavit submittal for signature/filing. The proposed work will consist of milling and resurfacing of IL Route 100 and adjacent Bike Trail and the cleaning of the storm drainage system from State Street to the pavement joint west of Williams Street in Alton, IL.

The Department's District 8 Bureau of Operations did not have sufficient forces and equipment to accomplish the required work. As such, we solicited quotations based on preliminary plan and estimated quantities from three contractors for this work and have selected C.E. Mahoney Company. C.E. Mahoney Company submitted the lowest quotation, they are pre-qualified, experienced, and have the manpower, staffing, and equipment to immediately mobilize and complete the project.
