- An emergency involving public safety.
- Necessary to protect State property from further loss or damage.
- Necessary to prevent or minimize serious disruption in State services.
- Necessary to insure integrity of State records.
- Quick purchase as provided by Section 20-30 (d) of the Illinois Procurement Code.

The conditions and circumstances requiring this emergency expenditure are:

While investigating issues at Eastbound I-90 near Cicero Avenue, our consultant and cleaning contractor observed and televised a collapsed a12-inch drainage pipe that has developed into a void under the eastbound left travel land and adjacent shoulder. The pipe was a part of an abandoned and capped storm sewer that collapsed and has undermined the pavement. A segment of the roadway (approximately 8 feet by 30 feet) has developed a crack above the void and the slab edge at the shoulder has dropped approximately 1 inch. Failure to fill this void and seal this section of pavement from continued storm drainage could result in shoulder and pavement damage, failure or collapse.

IDOT has developed repair plans and has solicited bids from four (4) qualified contractors.

Work will be funded by Central Bureau of Operations, Emergency Reserve Fund.
