Special Provision for Notification of Reduced Width

January 12, 2007

This special provision was developed by the Bureau of Operations to aid in the Department's wide load permit process.

This special provision should be inserted in all contracts with temporary concrete barrier and clear widths through the work zone of 16.0 ft (4.88 m) or less.

The districts should include the BDE Check Sheet marked with the applicable special provisions for the April 27, 2007 and subsequent lettings. The Project Development and Implementation Section will include a copy in the contract.

This special provision will be available on the transfer directory January 12, 2007.

## **NOTIFICATION OF REDUCED WIDTH (BDE)**

Effective: April 1, 2007

Add the following after the first paragraph of Article 701.06 of the Standard Specifications:

“Where the clear width through a work zone with temporary concrete barrier will be 16.0 ft (4.88 m) or less, the Contractor shall notify the Engineer at least 21 days in advance of implementing the traffic control for that restriction.”
