**HIGHWAY PROGRAM SUMMARY
ILLINOIS DEPARTMENT OF TRANSPORTATION
STATEWIDE LINE ITEMS**

Overview

The FY 2008-2013 Proposed Highway Improvement Program includes \$1,160 million for statewide projects. The statewide projects are used to reserve funds for types of work for which the need is anticipated but exact locations or other details are not known in program development. In some cases, actual projects are identified for these line items during the course of the current fiscal year. In other cases, the funds are reserved in the later years of the program for projects to be identified in subsequent programs. A complete list is included, but as examples, the statewide projects provide funding for:

- work zone and highway safety
- traffic control improvements
- contract maintenance which includes intermittent resurfacing, crack and joint sealing, bridge repairs and other roadway-related improvements that are performed by non-state forces
- emergency road and bridge repairs
- federally authorized Equal Employment Opportunity training programs and support services
- Economic Development Program providing highway improvements to provide access to new or expanding industrial and manufacturing developments
- National Recreational Trails Program
- environmental studies
- State Park roads
- engineering for miscellaneous work statewide
- railroad crossing safety projects
- Local Truck Access Route Program (TARP)
