<u>DESCRIPTION AND PURPOSE OF ITEM</u> This item provides the total median width for the structure to the nearest foot. This measurement is the total width between outside edges for mountable types (such as rumble-strips) and between outside faces of curbs, walls, guardrails, etc. <u>CODE AND SCREEN ENTRY INSTRUCTIONS</u> A two-digit code, right justified. Enter the total width to the nearest foot, filling leading spaces with zeros, when applicable. Leave blank if there is no median.
