

Addendum 1

Statewide Transportation Improvement Program

March 2009

FY 2009-2012

Illinois Department of Transportation Addendum to the FY 2009-2012 Statewide Transportation Improvement Program (STIP)

President Obama signed the American Recovery and Reinvestment Act of 2009 (ARRA) into law on February 17, 2009. The ARRA identifies \$936 million for roads and bridges in Illinois. In order to access the first half of these funds, state road projects must be obligated (i.e. authorized for federal reimbursement) within 120 days of apportionment. The timing required by the ARRA, the need to get projects awarded quickly in order to put people to work in the construction industry and the highway construction season in Illinois all combine to make contract letting in April a practical necessity. The Illinois Department of Transportation has identified approximately \$693 million of projects on state jurisdiction roads over and above the ongoing FY 2009 Highway Improvement Program that will be ready for letting in April.

The STIP is a summary program of highway and transit projects developed to fulfill federal planning requirements. The department's proposed multi-year highway improvement program is the basis for the highway element of the STIP. In order for the Federal Highway Administration (FHWA) to authorize projects for reimbursement, the projects must be part of the STIP. If a project is in a Metropolitan Planning Organization (MPO) area it must be included in that MPO's Transportation Improvement Program (TIP). In addition, significant changes to the anticipated amount of federal funds being used on projects also require addition to the STIP and/or MPO TIPs. The attached list depicts those projects not in an MPO that need to be added to the STIP. Projects in an MPO area will be added to the respective TIPs through the various MPO's amendment processes. The TIPs are part of the STIP by reference.

The attached list and the projects added to the MPO TIPs are subject to change and may require additional amendments based on final federal rules, new appropriation by the Illinois General Assembly, and approval by the Governor. There are "use it or lose it" provisions in the legislation. Projects that are not awarded remain available to access potential unused federal economic recovery funds redistributed from other states and for the second half of the allocation to Illinois. Matching funds are not required. However, as with all federal highway programs, the economic recovery program operates on a reimbursement basis. The state of Illinois must appropriate funds, award contracts and make progress payments to contractors and then bill FHWA for reimbursement.

Development of local non-MPO projects is ongoing. Local non-MPO projects proposed for federal economic recovery funding must also be included in the STIP. Additional STIP changes are anticipated as needed in order to fully utilize federal economic recovery funds. All highway projects proposed for federal economic recovery funds must have federal environmental clearances and be eligible, at minimum, for federal Surface Transportation Program (STP) funds.

The following tables summarize the department's best information at printing regarding estimated new federal funds, estimated project costs, and type of work anticipated to be accomplished. In addition, Eastern Federal Lands funds are proposed for roadway improvements under federal jurisdiction within the State of Illinois. Those projects that are not in an MPO are shown on Appendix A.

FY 2009 PROPOSED HIGHWAY ELEMENT OF THE STIP

Revenue projections are based on the American Recovery and Reinvestment Act of 2009 (ARRA). The following table provides a breakdown of anticipated available funds.

FY 2009 Funding (\$Millions)

FUND SOURCE	STATE	LOCAL	ENHANCEMENT	TOTAL
American Recovery & Reinvestment Act - 2009	627	281	28	936

The State highways are summarized in the following table which shows total estimated costs for projects that are eligible for ARRA funds. See the Grouped Projects listing.

Estimated Cost of Projects (\$Millions)

	FY 2009
MPO TIPs	429
Grouped Projects*	264
TOTAL	693

*(Not in MPO TIP)

FY 2009 Grouped Projects

Tables by work type/function providing anticipated level of accomplishments with associated estimated costs in millions are shown below for state projects only.

Resurfacing

The resurfacing category includes pavement resurfacing, rehabilitation and/or reconstruction, widening narrow pavements without adding travel lanes, truck-climbing lanes outside the urbanized area, shoulder improvements, increasing sight distance and other associated activities.

	FY 2009
Miles	483
Structures	7
Intersection	0
Cost (\$M)	241

Bridges

The bridge category includes the repair, rehabilitation or reconstruction of existing bridges, or the construction of a grade separation to replace existing at-grade railroad crossings and other associated activities.

	FY 2009
Structures	12
Cost (\$M)	5

Safety

The safety category includes highway safety or traffic operation improvement projects including signalization and other intersection improvements, skidproofing, railroad/highway crossing improvements median barrier cable and other associated activities.

	FY 2009
Intersections	0
Miles	0
Cost (\$M)	10

Other Engineering/Miscellaneous

This category also includes land acquisition associated with non-specific projects that can be grouped, emergency relief, lighting, rest areas and weigh stations.

	FY 2009
Cost (\$M)	8

APPENDIX A

Eastern Federal Lands Projects

The Eastern Federal Lands Highway Division has proposed a total of \$4,350,000 for improvements to federal lands within the State of Illinois. Below, the table shows those proposed projects that total \$3,700,000 which are not within a Metropolitan Planning Organization.

County	Location/Type of Work	Program Cost
Saline	Repave 7.5 miles of Forest Highway 1 in Shawnee National Forest	\$1,500,000
Saline	Repave 1.9 miles of Forest Highway 2 in Shawnee National Forest	\$400,000
Saline	Repave 5.4 miles of Forest Highway 11 in Shawnee National Forest	\$1,200,000
Saline	Replace Bridge on Forest Highway 18 in Shawnee National Forest	\$600,000
