

## Hireback Program Data

Note: this information is required for reports and the data is the responsibility of the hireback program coordinator. The Hireback Program Name + Hireback Patrol Name may be selected by an officer for a shift.

| Element Number | Application Field Name | Unique | DB | Mand | Repeats | ISP Field Type & Length | ISP DB Default | Application Default Requirements | Owner            | Definition  | Field Values               | Validations | Comments  |
|----------------|------------------------|--------|----|------|---------|-------------------------|----------------|----------------------------------|------------------|---|----------------------------|-------------|---|
| 1              | hb-HirebackProgramID   | Y      | Y  | N    |         | TBD                     |                |                                  | Server           | The unique identifier for the hireback program, which is stored with any citation created by an officer who has associated a shift with this hireback patrol. |                            |             | System generated.   |
| 2              | hb-Hireback Status     | N      | Y  | N    |         | A/N-10                  | Avail          |                                  | HB Administrator | The status code for the hireback program. Only ACTIVE status programs are displayed and available for selection.  | AVAILABLE<br>NOT AVAILABLE |             |   |
| 3              | hb-FiscalYear          | N      | Y  | N    |         | A/N-4                   |                |                                  | HB Administrator | The format is "FY10", "FY11", etc. The format does not have to be enforced by the application.  |                            |             | The screen should prompt the user to enter "FY10, FY11", etc.<br><br>The Fiscal Year and Hireback Program Name together should be unique.   |
| 4              | hb-ProgramName         | N      | Y  | N    |         | A/N-100                 |                |                                  | HB Administrator | The name of the funding program, which supports one or more hireback patrols  |                            |             | For example, "(410) Highway Safety Program"   |
| 5              | hb-HirebackPatrolName  | N      | Y  | N    |         | A/N-100                 |                |                                  | HB Administrator | The name of the hireback patrol sponsored under the Program.  |                            |             | For example, "Alcohol Countermeasure Enforcement"   |
| 6              | hb-CC CAD Acronym      | N      | Y  | N    |         | A/N-10                  |                |                                  | HB Administrator | The unique CAD acronym associated with the hireback program   |                            |             | Primarily used for reporting  |
| 7              | hb-CC Payroll          | N      | N  | N    |         | A/N-30                  |                |                                  | HB Administrator | The cost center payroll account from which the payroll is debited.  |                            |             | Primarily used for reporting  |
| 8              | hb-CC Suffix           | N      | N  | N    |         | A/N-10                  |                |                                  | HB Administrator | The suffix on the payroll account, which is meaningful on payroll reports   |                            |             | Primarily used for reporting  |
| 9              | hb-CC Designator       | N      | N  | N    |         | A/N-1                   |                |                                  | HB Administrator | A one-character code  |                            |             | Primarily used for reporting  |
| 10             | hb-Shift Type          | N      | N  | Y    |         | A/N-30                  |                |                                  | HB Administrator | The nature of the shift conducted under the hireback.   |                            |             | This is a free text field, but normally would contain values such as Patrol, Administrative. The number of shift types under the hireback program is unlimited.   |
| 11             | hb-Patrol Detail Type  | N      | N  | Y    |         | A/N-30                  |                |                                  | HB Administrator | The nature of the patrol conducted under the hireback.  |                            |             | This is a free text field, but normally would contain values such as roadside safety check, saturation patrol, child safety seat check, etc. The number of patrol detail types is unlimited, and may also be NULL |
